IMPORTANT NOTICE – DEBIT CARD SAFETY RECALL

Dear costumer,

Many of our bank costumers have reported that their debit cards have caught fire while they are in wallets and purses, and so as a precushion we are issuing an URGENT safety recall. This is a matter of the uppermost emergency as your card could create a pocket fire at any given moment, burning your legs and stomach terribly. This is because of a fault in the factory process at our debit card factory in Molton Keynes.

Therefore, for your own safety and verification, please complete the bottom of this form, and return it with your debit card to the safety manager at the following address:

The background of the slide is a solid red color. Overlaid on this is a dense, repeating pattern of black text and symbols, tilted at an angle. The text includes the words 'Science', 'Technology', and 'Innovation', along with various mathematical symbols like sigma, pi, and infinity. The pattern is diagonal, running from the top-left towards the bottom-right.
